Additional Exercises

Juxtaposing old and new maps/images:
1. Download and unzip the file labeled "Images for Additional Exercises."
2. Put the three images in your web accessible space.
4. Using the juxtapose tool at juxtapose.knightlab.org, create an image with a slider. Click on the "publish" button and copy the embed code.
6. Using the basic web page template, place the embed code on a page and upload the page to your web accessible space.

Adding complex data to a CartoDB map…
